
Oji Holdings Earns A Rating from CDP in Forests for Third Consecutive Year

Oji Holdings Corporation (President: Hiroyuki Isono) has been recognized for leadership in corporate transparency and performance on forests (Timber) by global environmental non-profit CDP, securing a place on its annual 'A List' for the third year in a row.

With around 635,000 hectares of forests worldwide—three times the size of Tokyo—Oji Holdings is one of Japan's largest private-sector forest owners. Long before sustainability became a global priority, we have been dedicated to sustainable forest management and the circular use of renewable resources.

By carefully managing our forests and ensuring the responsible sourcing of wood materials, we actively address environmental and social challenges. This continued recognition from CDP underscores the global impact of our efforts.

As a company with extensive forest resources, Oji Holdings will continue to drive sustainability by implementing Nature-based Solutions (NbS) while advancing nature positivity, carbon neutrality, and a circular economy.

About CDP

CDP is a global non-profit that runs the world's environmental disclosure system for companies, cities, states and regions. Founded in 2000 and working with more than 700 financial institutions with over \$142 trillion in assets, CDP pioneered using capital markets and corporate procurement to motivate companies to disclose their environmental impacts, and to reduce greenhouse gas emissions, safeguard water resources and protect forests. Over 24,800 companies around the world disclosed data through CDP in 2024, including listed companies worth over two thirds of global market capitalization.
