The Oji Group has set "Profitability Improvement of Domestic Business", "Expansion of Overseas Business" and "Promotion of Innovation" as the fundamental policies of its FY2019-2021 Medium-term Management Plan. Through "Contribution to a Sustainable Society", we aim to become a global corporate group which stably maintains consolidated operating profit of more than ¥100.0 billion.

Based on the fundamental policies, in the domestic business, we have focused on restructuring our production system to respond to the structural changes in demand, and worked to improve capital efficiency while concentrating management resources on promising businesses to strengthen our ability to generate cash flow. In regard to overseas business, we have organically expanded the existing operations by expanding the number of overseas operations as well as developing new businesses utilizing existing infrastructure. We have also worked to create synergies among our businesses as well as operations.

Although the worldwide spread of the Coronavirus Disease 2019 (COVID-19) has subsided in some countries and regions, there are many countries and regions where the spread of the virus has not stopped, and there is still no prospect for economic recovery.

Meanwhile, we expect the demand to recover at a moderate pace as economic activities resume while preventing the spread of COVID-19. We will continue to steadily implement various measures in line with our group management strategy, and strive to strengthen profitability and enhance our corporate value over the medium-to long- term.

Consolidated net sales for the first half of FY2020 decreased by ¥107.8 billion to ¥652.4 billion (year-on year decrease of 14.2%) as both domestic and overseas businesses were affected by the spread of COVID-19. Overseas sales ratio decreased by 1.8 points from the previous year to 28.6%.

Consolidated operating profit decreased by ¥26.3 billion to ¥29.3 billion (year-on-year decrease of 47.3%) due to decreased profit in both domestic and overseas businesses. Ordinary profit decreased by ¥29.2 billion to ¥22.1 billion (year-on-year decrease of 57.0%).

Profit before taxes decreased by ¥25.4 billion to ¥22.2 billion (year-on-year decrease of 53.3%), and profit attributable to owners of parent decreased by ¥18.6 billion to ¥10.3 billion (year-on-year decrease of 64.3%).
