Notice Regarding Oji Nepia Disposable Diaper Business

Oji Holdings Corporation (CEO: Hiroyuki Isono, Head office: Tokyo) has decided to terminate the domestic disposal diaper business for babies of its subsidiary, Oji Nepia Co., Ltd. (President: Takayuki Moridaira, Head office: Tokyo), in September of this year. However, the company aims to continue and expand its operations in the growing overseas markets (Malaysia and Indonesia), while also focusing its resources on the market for the domestic disposable diapers business for adults, where growth is anticipated.

Furthermore, as Oji Nepia's main business, the household paper business will continue its efforts to expand the business and enhance customer value by developing environmentally friendly products and improving customer convenience.

The Oji Group is focusing its investments on businesses with high profitability and growth potential to enhance corporate value. Low-growth businesses will be managed for cash flow, to secure funds, aiming for a transformation of the business portfolio. The decision to terminate the domestic baby paper diaper business aligns with this strategy.
