
Oji Group's paper product chosen by DELTA International CO., Ltd. for "Nutsyasan Series" renewal

Oji Holdings (CEO: Hiroyuki Isono, Head Office: Tokyo) announces that Oji Group's paper was chosen by DELTA International CO., Ltd. for their "Nutsyasan Series" product.

"Nutsyasan Series" is the renewed version of its former lineup "Kudamonoyasan no Kinomi", a series of salt-and-oil-free roasted nuts made to enjoy the most of their original taste. The renewed version utilizes the characteristics of kraft paper to express the naturalness of the roasted nuts. Having a concept of "starting from what we can do, for the earth, and for you", DELTA International CO., Ltd. has selected a paper packaging with a paper recycling identification mark, which indicates the use of paper for more than 50% of its total material weight in Japan, to reduce the use of plastics. The paper packaging also has plastics laminated internally to ensure the moisture resistance and barrier properties.

With the global movement to reduce plastic consumption, there has been a growing demand in adopting paper for packaging. Oji Group has been supplying environmentally-friendly packaging solutions "sustainable package" (*) to engage with the SDGs.

We will continue to strive for green innovation together with our clients' actions.
