
Registration as a TNFD Adopter

Oji Holdings Corporation (CEO: Hiroyuki Isono, Head office: Tokyo, hereafter "Oji Holdings") announces that it has registered as a TNFD Adopter, an adopter of the recommendations published by the Taskforce on Nature-related Financial Disclosures (TNFD) in September 2023. Oji Holdings will disclose information on nature-related risks and opportunities in its business, as well as the governance and strategies for managing them, in line with the TNFD recommendations.

The Oji Group owns and manages approximately 600,000 hectares of forests in Japan and overseas, and promotes sustainable forest management and biodiversity conservation under its long-term vision, "Environmental Vision 2050", which aims to achieve "net-zero carbon" and "harmony with nature and society", and its milestone "Environmental Action Program 2030".

Going forward, the Oji Group will continue and expand initiatives to consider ecosystems in its business activities, including the value chain, and contribute to achieving the global goal of Nature Positive (halting and reversing biodiversity loss to put nature on a path to recovery by 2030).

■ Task Force on Nature-related Financial Disclosures (TNFD)

The TNFD is an international organization launched in June 2021 with the support of national governments, businesses, and financial institutions to encourage businesses to disclose nature-related financial information. The TNFD develops and publishes disclosure frameworks and guidelines.

■ TNFD Adopter

TNFD Adopters are organizations that have registered on the TNFD website their intention to proceed with disclosures aligned with the TNFD recommendations. Registered organizations will be required to disclose information aligned with the TNFD recommendations in their FY2024 or FY2025 reports. Organizations registering by January 10, 2024, will be announced as early adopters at the World Economic Forum Annual Meeting at Davos in January 2024.
