The Oji Group has set the basic policy of "Toward Further Growth and Evolution" as the Long-term Vision for 2030, and is promoting "Initiatives for Environmental Issues -Sustainability-", "Initiatives for Profitability Improvement -Profitability-" and "Initiatives for Product Development -Green Innovation-". As the milestones of the Long-term vision, we have set FY2022-2024 Medium-term Management Plan, which aims to achieve the consolidated operating profit of $¥ 150.0$ billion or more by FY2024 and stably maintain consolidated profit attributable to owners of parent of $¥ 100.0$ billion or more.
Specifically, we will continue our efforts on environmental issues by promoting greenhouse gas reduction and expanding net CO2 absorption by forests, as countermeasures against climate change. At the same time, we will enhance the value of our business by deepening the existing businesses through the establishment of an optimal production system, and expanding the highly-expected businesses including overseas packaging business and eco-friendly products. In October 2023, as part of "Initiatives for Profitability Improvement -Profitability-", we signed a share transfer agreement to acquire all shares of Walki (Head Office: Finland), a leading company with advanced technologies in material conversion especially for paper-based sustainable solutions. The purpose of the acquisition is to build and expand a platform for our packaging business in Europe as one of the leaders in the packaging sector. Furthermore, we will develop and quickly commercialize new wood-derived products and materials such as eco-friendly materials and products, based on a range of core technologies we have cultivated through paper manufacturing and forestation. We will contribute to society as a company that "grows and manages the sustainable forest, develops and delivers the products from renewable forest and brings this world a brighter future filled with hope".

Consolidated net sales for the first half of FY2023 increased by $¥ 9.6$ billion to $¥ 847.1$ billion (year-on-year increase of $1.1 \%$ ) due to the price revision mainly in the domestic business.

Consolidated operating profit decreased by $¥ 1.6$ billion to $¥ 38.8$ billion (year-on-year decrease of $3.9 \%$ ) due to sluggish demand, following the slow recovery of the global economy, and deteriorating pulp market conditions, though in Japan, the price revision and cost reduction made up for a decline in sales volumes as a result of consumption restraint caused by inflation, etc. Ordinary profit decreased by $¥ 9.4$ billion to $¥ 50.8$ billion (year-on-year decrease of $15.6 \%$ ) due to a decrease in foreign exchange gains from revaluation of foreign currency-denominated receivables and payables. Profit before taxes decreased by $¥ 7.5$ billion to $¥ 50.0$ billion (year-on-year decrease of $13.0 \%$ ), and profit attributable to owners of parent decreased by $¥ 6.3$ billion to $¥ 31.6$ billion (year-on-year decrease of $16.6 \%$ ).
Overseas sales ratio decreased by 4.1 points from same periods in the previous year to $34.4 \%$.
