## Selected as a Member of the “SOMPO Sustainability Index” for Eight Years in a Row

---

Oji Holdings Corporation (President: Hiroyuki Isono, Headquarters: Tokyo) announces that it has been selected, for the eighth consecutive year, as a member of the SOMPO Sustainability Index, used in SOMPO Asset Management Co., Ltd.'s (“SOMPO Asset Management”) “Sustainable Management” investment strategy.

“Sustainable Management” is a responsible investment product for pension funds and institutional investors that invests in a wide range of companies with a strong reputation in ESG. SOMPO Asset Management builds a portfolio and manages long-term investments based on its own SOMPO Sustainability Index, an active index developed in-house, which comprises approximately 300 companies with outstanding ESG-related initiatives.

Stocks included in this index are selected based on the results of the “Environmental Management Survey” and the “ESG Management Survey” conducted by Sompo Risk Management Inc., and are reviewed annually. This year, our ESG initiatives have been recognized, and we have been selected for the eighth consecutive year.

The Oji Group will continue to contribute to sustainability through various initiatives that give due consideration to environmental, social, and economic aspects.
